

Green Legacy: Vruksharopan Divas

On June 5, 2025, JJAMC observed Vruksharopan Divas with great zeal. Students, faculty, and staff actively participated in planting a variety of saplings across the campus and surrounding areas. Alongside the plantation drive, short talks were delivered by professors on the Ayurvedic perspective of trees as healers and their role in purifying the environment. The event inspired the younger generation to take personal responsibility for preserving biodiversity and creating a greener tomorrow.
